DETAILED ACTION

Allowable Subject Matter

1. Claims 1-24 are allowed.
2. The following is an examiner's statement of reasons for allowance: The primary reasons for allowance of the claims is the laser enhancing additive comprising a first quantity of at least one CuKI₃, CuI, KI, NaI and AlI; and a second quantity of at least one ZnS, BaS, alkyl sulfonate and thioester in combination with a modified for increased thermal conductivity host material. The prior art (see PTO 892) teaches compositions having laser engraving properties; however these compositions and method teach adding laser absorbing compounds, such as sensitizing dyes or fillers, such as carbon black. The prior art fails to teach articles of manufacture having the claimed laser additive in the preparation of said articles or in different layers of laminates used in preparing said articles of manufacture. The instant invention is distinguished over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Priority

3. Applicant's claim for domestic priority under 35 U.S.C. 119(e) is acknowledged.

Drawings

4. The drawings filed on May 26, 2004 are acceptable subject to correction of the informalities indicated on the attached "Notice of Draftsperson's Patent Drawing Review," PTO-948. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.
